

# ***The Four Freedoms of Free Software***

## **Freedom №0**

The freedom to run the program as you wish—for any purpose.

## **Freedom №1**

The freedom to study how the program's source code works, and change it so it does your computing as you wish.

## **Freedom №2**

The freedom to redistribute copies—of the binaries as well as the source—so you can help your neighbors.

## **Freedom №3**

The freedom to distribute copies of your modified versions to others.

*※Only a program offering users all four is free software!*
